# BABY TRANSLATØR

A fun branded TikTok effect that determines the recipe of the day based on your baby's movements and vocalization.

(Thanks for lending your voice, TikTok text to speech!)

# HOW DOES IT WORK?

1. Take a video of your child.

---------

2. Al will analyze it for "clues".

3. Then your baby gives you a recipe that you can make in no time with your Philips Airfryer.

#### & WATCH IT GO VIRAL

New moms flock to TikTok for advice and fun, so we find them right where they are with relevant and engaging content that tells them the main emotional benefit of the Philips Airfryer: you don't have to worry about cooking any more.

The platform allows for clear branding and the content itself is so product-related you can click right through to the NutriU app.
